

Half Acres Early Years Vision Statement

In Early Years at Half Acres we aim to support children to become happy, confident and curious learners.

In Early Years at Half Acres we create an environment where all children are independent, confident and engaged. Staff understand the need for children to feel safe, happy and respected. This is achieved through building positive relationships and communicating high expectations to all.

We pride ourselves in developing learners who are self-motivated, successful and have a love of learning. This is accomplished by giving the children a voice to take their learning where their interests lie.

We encourage our children to be unique, sociable individuals who feel able to take risks and challenge themselves in order to reach their full potential.

We strive to develop resilience and empathy in our children to prepare them for the next stage of their learning journey.
